- Version Control System: Github? (
- This Google doc
- Discord server
- Meetings
- Maintaining

(3) *definitions of functions;* (R&D 1)

Maintain a common format for each definition

Each person can work on their own function's definition once a format is finalized.

(4) *an initial mapping of functions to team members;* (PM)

[Section created](#)

(5) *list of interview questions and responses;* (R&D)

[Section created](#)

(5) *analysis of interview responses;* (General, R&DI)

(6) *initial list of potential personas;* (R&D)

[Section Created](#)

(7) *initial set of use cases.*

[Section Created](#)

2. Decide on team positions.

Drop what positions you think are needed here: *(Preferably get an exec name for all team members)*

- A. Project Manager- Jong
- B. Scrum Master - Kiana
- C. Content Editor - Ruksmita
- D. Tech Lead- Atul
- E. Designer- Alexander
- F. QA Lead- Khavish
- G. QA Analyst-Jiaqi

Describe what you would like to do: (*apart from your transcendental function*)

R&D: Research

PM- Project Management and Documentation: Tech Management, Documentation

- A.
- B.
- C.
- D.
- E.

3. Gathering interview questions

4. Common format of Interviews/Personas/UseCases

5. Next meeting: Time and Agenda

Meeting Notes: Meeting 0

-Kiana

 Meeting 1 Minutes

Function distribution:

The permitted set of choices is:

1. $\arccos(x)$
2. $a(b^x)$
3. $\log_b(x)$
4. $\Gamma(x)$ (Gamma Function)

5. MAD (Mean Absolute Deviation)
 6. σ (Standard Deviation)
 7. $\sinh(x)$
 8. x^y
-

Collection: Interview Questions

{Drop interview questions}

- 1.
 - 2.
 - 3.
-

Collection: Persona/Test Case format

{Drop any links that can help with preparing personas or their format}

- 1.
 - 2.
 - 3.
-
